

Making Money!

Some men make their money in business—some in stocks—some by toilsome saving of their daily wage. But we submit to you the fact that more men here reached a comfortable competence thru the ownership of property—houses and land which bring in a fixed income—than in any other way.

Business requires your sole attention—stocks means sleepless nights and days of worry—property works by itself for you without your care.

Select it—set it to work—it takes care of itself and will take care of you.

DID YOU KNOW

That statistics show that the population of the United States is doubling about once in every twenty-eight years—and the EARTH is not stretching one bit. People have got to have homes. It is a settled fact that farming lands will never be cheaper and just as sure to go higher as you exist today. Did you know that any way you figure it the renter has always got the hot end of it? Furnish all the teams and everything else, do all the work and for what—at best only one half and often less than this. Did you know that you could easily pay the 6 per cent. interest and get all the crop instead of the one-half that you are now getting and then make more than 100% than you are now making. These are absolute facts.

Don't listen to a professional knocker who is always telling you something that he doesn't know. Use your own common sense and own you a home.

Had Terrible Pains in Kidneys and Back.

Dear Mr. Editor—I want to write you about "Anurie." I was very sick, could hardly be up; I was in bed most of the time. Had terrible pains in my kidneys and back, so much so that I had to scream sometimes when I was sitting down and wanted to get up, the pain was so great. I had tried a well-known kidney medicine but it didn't help me. I heard of Dr. Pierce's Anurie Tablets so I thought I would try them. I took only one box of the Tablets, and my back is now free from pain and I can work and take care of my family. I feel I cannot say enough for this medicine. Sincerely, Mrs. WM. KELLER.

NOTE: This "Anurie" is adapted especially for kidney complaints and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine and urinary troubles. The physicians and specialists at Dr. Pierce's great institution, at Buffalo, N. Y., have thoroughly tested this prescription and have been with one accord successful in eradicating these troubles, and in most cases absolutely curing the diseased kidneys.

Patients having once used "Anurie" at Dr. Pierce's Invalids' Hotel, have repeatedly sent back for more. Such a demand has been created that Dr. Pierce has decided to put "Anurie" in the drug stores of this country, in a ready-to-use form. If not obtainable send one dime by mail to Dr. Pierce for trial package or 50 cents for full treatment.

Dr. Pierce's Golden Medical Discovery is a blood cleanser and alterative that starts the liver and stomach into vigorous action. It thus assists the body to make rich, red blood, which feeds the heart, nerves, brain and organs of the body. You feel clean, strong and strenuous.

ANOTHER VETERAN GONE

Mr. J. T. Chastee, a life long Baptist and a minister of the gospel, has gone to receive the reward that is waiting for those who serve the "Master and His cause." Mr. Chastee was born in Rockcastle county, June 20, 1847. He came to Lincoln county when a very young man and most of the remainder of his life was spent here, where he was loved and esteemed by all who knew him. He left a wife and three grand children to mourn his loss. Funeral services were conducted by Rev. M. D. Early at his late home at Turnersville. The Masons then took charge of the body and laid it to rest in the Campbell cemetery. May He Who alone can comfort be a friend in the time of need to the bereaved ones.

VOLTAIRE 55140

Farmers don't you think right now is the best time to raise draft horses? The price was never higher than now, and our supply of work horses is at the lowest point it has been for years.

There are not more than half as many brood mares in the county now as there were five years ago. You can see that we are facing a horse famine. What are you going to do about it? Autos and auto-trucks are all right, but you can't farm with them. You can't raise colts from your mules. It looks like the most sensible and business-like thing to do is to raise some good draft colts before your old brood mares are gone.

I offer for public service the champion draft stallion, Voltaire. He has proven himself to be one of the best breeders this county has ever known. He will make the season at my place on the Danville pike, one mile from Stanford at \$15 to insure a living colt; season due when colt is foaled or mare parted with. Will not be responsible for accidents

The Senate by a vote of 38 to 32 incorporated a provision in the Espionage Bill forbidding the use of cereal grains for the manufacture of intoxicating liquors from September 1, 1917, until the close of the war. Any doubts members of the British war mission may have felt as to the sincerity of Americans have been dispelled now, A. J. Balfour declared yesterday in New York.

I don't suppose there is a better bred horse in Kentucky than Kentucky Gentleman. He has been one of the most successful horses in the show ring that this county has produced in years. He is just the right size for a saddle horse and his first colts which are four years old now are showing the saddle gaits nicely. The auto has put the light driving tent, but you don't have any trouble in selling a saddle horse.

I am going to offer the services of this great horse at the extremely low price of \$15 to insure. I am giving you for \$15 what most men would charge from \$25 to \$40 for. Do you appreciate it? If so send your best mares to the court of Kentucky Gentleman and let him get you a nice colt.

Farm Lands For Sale

Good Quality—Terms Easy

A trip through different sections of the State of Mississippi and an observation of agricultural conditions there has convinced me that it is the place at the present time to secure the best land values at the lowest prices—from \$5 to \$50 per acre, some of them near a city, with six trunk line railroads, and as large as Lexington, Kentucky, where lands are selling at \$300 per acre—by those seeking homes or investments in good farming lands.

Believing that it would be of mutual advantage and profit to those seeking homes or investments in farming lands, at lower prices than are possible in this section of Kentucky, where land values have advanced beyond the reach of the farmer of moderate means, I have associated myself with several responsible gentlemen in the state of Mississippi and am in position to offer some very attractive propositions to those seeking investments of this character, on easy terms, aided by the "Federal Farm Loan Act."

These lands, due to the short winter season, and long grazing periods are especially adapted to stock raising and diversified farming; are well located as to churches, schools, shipping points and markets; are situated on improved highways and are well watered, either by streams or artesian wells.

Almost every character and kind of crop that can be raised in Kentucky can be raised profitably in Mississippi.

Cheap railroad rates for home-seekers can be obtained by those desiring to look the situation over. I shall be pleased to give further information to any one who is sufficiently interested, that will call to see me or write to me at Stanford. HARVEY HELM.
